DINO vs. Ours Guide: (b) DINOv2 Teacher = continuous floating-point DINOv2 (ViT-S/14) foundation model (training target only).
(c)–(e) Ours (PureSpikeFormer) = event-only pure binary-spike SNN students: (c) global-only baseline, (d) Stage 2 (+ dense patch affinity), (e) Ours Final Stage 3 (16×16 + masked completion).
